ERASMUS+ PROJECT

Training course on
**Free and Open
Source Software**
in everyday business

WWW.FOSS4SMES.EU

THE PROJECT

Are you working for a SME and regularly use a computer? Then you should read on!

The European Commission is funding our project, FOSS4SMEs, which will develop a training course on how SMEs can benefit from using Free and Open Source Software (FOSS).

The course will be freely available online and be tailored in scope and length so that managers and staff of SMEs can learn how to adopt FOSS in their organisation effectively.

Our project will also develop a report with policy recommendation for decision-makers and training providers to promote the adoption of FOSS among European SMEs.
